

Course	Tender evaluation and contract awarding
Course outline	<p>This module focuses on covering the knowledge and skills needed to carry out tender evaluations systematically as prescribed, choose appropriate suppliers that fulfil all criteria and enter a contract. We will start with knowing the importance of having the plan and a panel in place prior to commencing the assessment. A good understanding of evaluation standards, methods and processes of evaluating tenders are essential to develop assessment techniques. The group members need to be aware of important aspects of communicating with the tenderers during the process. Once the decision is taken, the panel needs to complete the post-assessment activities and enter a contract with the successful supplier.</p> <p>The course will be delivered in a workshop format and the activities, case studies and examples shared by the skilled facilitator along with the core concepts will augment the overall learning experience.</p>
Target audience	Any staff who is/will be a part of tender evaluation process, and or manages this process in a local government context.
